

The 2nd International Conference on Arch Bridges

TABLE OF CONTENTS

PREFACE

HISTORY OF STRUCTURAL MECHANICS

1850-1880: Bridge-building and modern structural mechanics.....	3
E. BENVENUTO	
The relationship between the Gothic model and the conception of bridges.....	15
A. COSTE	
Empirical methods for the construction of masonry arch bridges in the 19th century.....	25
M.CORRADI	
Arch and vault from 1800 to 1864.....	37
K.-E. KURRER AND A. KAHLOW	

HISTORY OF CONSTRUCTION

Conceptual design of Renaissance arch bridges.....	45
H.FALTER and A. BÖGLE	
Brick bridges and historical transportation systems.....	53
M.CHALANA	
Construction knowledge between the 18th and the 19th century applied to arched masonry systems in Venice.....	57
G.RIVA and P.VALLE	
M. Lévy versus J.de La Gournerie: A debate about skew bridges.....	65
A.BECCHI	
The masonry bridges and viaducts to the first Piedmontese railway, 1845-1853.....	73
L.RE	
The experimental approach in the evolution of construction systems: The contribution of the Porcheddu company of Turin to the refinement of the Hennebique system.....	81
A.M. SASSI PERINO and G. FARAGGIANA	

EQUILIBRIUM AND LIMIT ANALYSIS

The assessment of strength of masonry arches.....	95
J. HEYMAN	
Lower and upper bound theorems for masonry arches as rigid system with unilateral contacts.....	99
A. SINOPOLI, M. CORRADI and E. FOCE	
On the analysis of multi-ring brickwork arch bridges.....	109
M. GILBERT	
On the definition of the geometrical safety factor of masonry arches.....	119
A. DE RUBEIS	
The mechanism model in the seismic check of stone arches.....	123
P. CLEMENTE and A. RAITHEL	

THEORETICAL MODELS AND ANALYSIS

Minimum and maximum thrust states in Static of ancient masonry bridges.....	133
M. COMO	
An upper bound analysis for the strength assessment of masonry arch bridges.....	139
A. EASHOUR and S. W. GARRITY	
A contact mechanical approach to the theory of the elastic voussoir arch.....	147
H. PARLAND and A. MIETTINEN	
Hardening and shakedown of masonry arch joints.....	155
B. T. ROSSON and T. E. BOOTHBY	
On the use of Somigliana dislocations applied to masonry arches.....	163
L. E. ELETTI and M. RAPALLINI	

NUMERICAL METHODS FOR STRENGTH ASSESSMENT

Finite/discrete element models for assessment and repair of masonry structures.....	173
D. R. J. OWEN, D. PERIE, N. PETRINIC, C. L. BROOKES and P. J. JAMES	
Distinct element analysis of stone arches.....	181
G. MIRABELLA, ROBERTI and E. CALVETTI	
FE modelling of the dynamic response of Kimbolton Butts bridge.....	187
A. BENSALAM, H. ALI-AHMED, C. A. FAIRFIELD and A. SIBBALD	
Numerical simulation of experiments in arch bridges.....	195
P. ROCA, C. MOLINS, T. G. HUGHES and C. SICILIA	
Interactive assessment of masonry arch bridges.....	205

A. KUMAR	
Load capacity of multi-arch masonry bridges.....	213
C. MOLINS and P. ROCA	
Safety evaluation and retrofitting of an arch r.c. bridge.....	223
C.MODENA and D.SONDA	
An approach to the structural model for masonry arch bridges:	
Pont Saint Martin as a case study.....	231
G. FRUNZIO and M.MONACO	

NON-DESTRUCTIVE TESTING

Tomography for NDT applied to masonry structures: Sonic and/or EM methods.....	243
S.VALLE, L.ZANZI, L.BINDA, A.SAISI and GLENZI	
Radar testing of masonry arch bridges with soil backfill.....	253
C.COLLA, D.M.MCCANN and M.C.FORDE	
The behaviour of open spandrel brickwork arch bridges.....	263
C.MELBOURNE and H.TAO	
NDT as a tool for detection of gradual safety factor deterioration in loaded arches.....	271
A.BENSALEM, H.ALI-AHMED, C.A.FAIRFIELD and A.SIBBALD	

DYNAMICS AND EXPERIMENTAL TESTING

Effects of vehicle impact loading on masonry arch parapets.....	281
B. HOBBS, M.GILBERT and T.MOLYNEAUX	
The collapse behaviour of a multi-span skewed brickwork arch bridge.....	289
C.MELBOURNE	
Dynamic testing of masonry arch bridges.....	295
J.W.BINTRIN, J.A.LAMAN and T.E.BOOTHBY	
Restoration of a two arches masonry bridges:	
Experimental testing and mechanical behaviour.....	305
A. SALVATORI	

SPECIAL PROBLEMS AND NEW DESIGN

Some notes on system behaviour in arch bridges.....	315
W.J.HARVEY, E.W.SMITH and R.BARTHEL	
The influence of soil and masonry type on the strength of masonry arch bridges.....	321

T.G.HUGHES, M.C.R.DAVIES and P.R.TAUNTON	
Mass concrete arches.....	331
C.MELBOURNE and S.K.NJUMBE	

CONSERVATION AND MAINTENANCE

A Roman viaduct-bridge in Campania: History, structure and maintenance.....	343
A.BARATTA and T.COLLETTA	
Construction conception and structural conservation of masonry arch bridges.....	353
M.BELLOMO and S.D' AGOSTINO	
Danages of existing stone bridges in Greece.....	361
M.KARAVEZIROGLOU-WEBER, E.KARAYIANNI AND E.STAVRAKAKIS	
The Venice-Mestre masonry road bridge:	
Checking durability of maintenance operations.....	369
G. J. RUSNAK and T. E. BOOTHBY	
Stone bridges and historic American landscapes.....	377
C.J.RUSNAK AND .E.BOOTHBY	

REPAIR AND STRENGTHENING

Widening and strengthening of London's Kingston Bridge.....	389
E. N. HEALEY and J. H. W. COUNSELL	
Set up of restoration methodologies for cast iron bridges in Venice.....	399
E. BONOLLO, C. MODENA, A. TIZIANI and M. G. VALLUZZI	
Respair and strengthening of five full scale masonry arch bridges.....	407
S.K.SUMON	
Strengthening masonry arch bridges through backfill replacement by concrete.....	417
G. FAUCHOUX and C. ABDUNUR	
Repair of the old stone bridge of Krania in Greece.....	423
M. KARAVEZIROGLOU-WEBER, E. STAVRAKAKIS, E. BELISSARI, M. EFTAXIA and C. PANOUSI	

SUPPLEMENT

Thermal effects on a masonry arch bridge investigated using ABAQUS.....	431
J.I.ROBINSON, D.J.PRENTICE AND D. PONNIAH
